Professional Summary

Detail-oriented Software Quality Analyst with hands-on experience in Manual Testing, Functional Testing, API Testing, Database Validation, Defect Tracking, and Test Case Design. Skilled in WordPress CMS Testing, Selenium Automation, Jira, Postman, MySQL, and GitHub through end-to-end QA projects. Seeking a QA Engineer / Software Tester role to contribute to software quality and continuous improvement.

Core Skills

- Testing Types: Manual, Functional, Regression, Smoke, Sanity, API, Database Testing
- QA Processes: Test Case Design, Test Scenarios, Defect Tracking, Bug Reporting, Requirement Analysis, SDLC, STLC
- Tools: Jira, Postman, MySQL, MySQL Workbench, WordPress, XAMPP, Git, GitHub
- Automation: Selenium WebDriver, TestNG, Maven, Page Object Model, Allure Reporting
- Languages: SQL, Java (Basics), C

Work Experience

Assistant Professor — Dadi Institute of Engineering & Technology Oct 2023 – Nov 2025

- Delivered undergraduate courses in DBMS, C Programming, and SQL; developed curriculum, practical assignments, and hands-on projects strengthening students' technical and analytical skills.
- Contributed to academic research through IEEE publications on blockchain-based systems and web technologies; authored book chapters on AI-driven database optimization and data management.

Assistant Managing Content Editor — OMICS International Pvt Ltd Oct 2022 – Oct 2023

- Performed content verification, validation, proofreading, and quality checks ensuring accuracy, completeness, and compliance with publishing standards; resolved content defects via cross-functional collaboration.
- Managed end-to-end content review workflows, conducted UAT-style validations before release, and maintained high-quality benchmarks across digital publishing platforms through systematic QA processes.

Junior Data Analyst Engineer — Chandusoft Technologies Pvt Ltd Dec 2021 – Sep 2022

- Validated e-commerce application data, discount codes, promotional offers, and website content to ensure functional accuracy, data integrity, and a seamless user experience across multiple platforms.
- Identified and reported data mismatches, incorrect outputs, and content issues; supported QA activities through structured data validation, defect reporting, and quality reviews.

Process Executive — Patra India Oct 2019 – Dec 2021

- Performed data validation, quality checks, and defect identification for US insurance certificate processing systems, ensuring accuracy, consistency, and compliance across multiple business modules.

- Analyzed and resolved data discrepancies by collaborating with cross-functional teams, adhering to SLA requirements, and contributing to process quality improvements and operational efficiency.

Projects

E-Commerce Testing Project

- Created Test Plan, RTM, and executed 55 test cases across 8 modules using Functional, API, and Database Testing techniques.
- Performed API testing on 10 REST endpoints, SQL validation, and defect tracking while maintaining complete test documentation in GitHub.
- Tools: Jira, Postman, MySQL Workbench, Google Sheets, GitHub.

Dream-QA Portal

- Developed a Selenium automation framework using Java, TestNG, Maven, and Page Object Model.
- Automated 14 test scenarios with screenshot capture, Allure reporting, and GitHub-based version control.
- Tools: Java 21, Selenium 4.18, TestNG, Maven, WebDriverManager, Allure.

CMS Testing Project (Software Quality Assurance)

- Performed end-to-end testing of a WordPress CMS; designed and executed 30 test cases across Login, Content Management, Media Upload, Categories, Tags, and User Management modules.
- Conducted API testing using Postman and database validation using MySQL Workbench/phpMyAdmin; managed defects in Jira and maintained project artifacts in GitHub.
- Tools: WordPress, XAMPP, Jira, Postman, MySQL Workbench, phpMyAdmin, GitHub, Microsoft Excel.

Certifications

- Software Testing — Manual Testing, API Testing, SQL, Jira
- Selenium Automation Testing

Education

Master of Technology (M.Tech), Software Engineering (CSE) — Dadi Institute of Engineering & Technology 2019 - 2021

- Grade: A | CGPA: 7.5

Bachelor of Technology (B.Tech), Computer Science Engineering — Dadi Institute of Engineering & Technology 2015 - 2019

- Grade: A | Percentage: 75.63%
